

Speculator Lions Club Pancake Breakfast Breaks Another Record

The annual Speculator Lions Club Pancake Breakfast, held in conjunction with the FAA safety seminar, broke another attendance record this past Saturday. Despite the weather, which caused cancellation of the seminar, local residents, once again, showed their support for the Lions and their charitable work throughout the community. Held at the new garage and FBO facility at the Piseco Airport, the Lions, and invited chefs Barbara Tracy and Josena Turner, served over 420 breakfasts, not counting seconds, to the large crowd. This exceeds last year's attendance of 375.

Co-chaired by Tom Connolly and Dick Newell, Dick said "It was hectic for a while, but the club members did a great job of keeping up the pace, although we did run out of eggs and pancake mix at one point. Thanks to The Inn, Common Grounds Cafe, and Farber's General Store, we were able to re-supply quickly and keep the food flowing." Tom said, "The support from the people and businesses of the community is essential to the Lions Club being able to meet its goals of community service. In addition to the businesses Dick already mentioned, the Town of Arietta, LPCS, J&R Elredge, Pleasant Riders Snowmobile Club and others all contribute to our ability to make the breakfast a success and we truly thank them."

All Speculator Lions Club proceeds go entirely to supporting Lions Club charities and local charitable needs.
